USA Goals

- É to strengthen the public broadcasting system through improving the relationship between broadcasters and universities;
- É to focus on commonalities of purpose between a station and its university licensee; to integrate university/station missions and strategic plans so that stations have a place at the university table;
- É to assist stations in managing licensee relations on a day-to-day basis;
- É to establish firewall+standards of editorial integrity;
- É to test the assumption that it is in the best interest of all university stations to continue to be owned and operated by universities; and if not,
- É to explore available options and help the station/licensee facilitate the transition
